

HIGH SPEED / LARGE CASE & TRAY PACKER

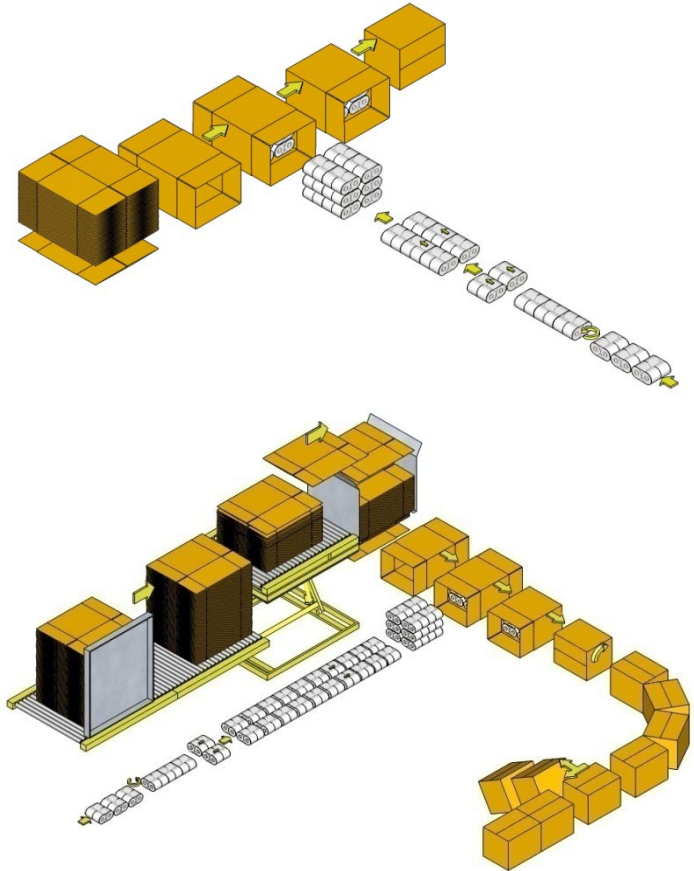

Case Size	Min	Max
Length	14"	27"
Width	20"	24"
Depth	12"	27"

The **SR 3600** is an innovative, 'large case' case & tray packer that is fast, flexible, and designed to handle a wide case size range. It is ideal for tissue products and cereal applications. It can operate both as a case or HSC tray packer and when coupled with Edson's flexible SC collator it provides high-speed, accurate results. Changeover times are less than 30 minutes.

Feature	Function	Benefit
Case / Tray Erector	2 KDF panel gripping assembly to erect reliably large cases & trays	Few change over adjustments; works well on thin gauge corrugate
Case/Tray Dispenser	Proprietary 'servo rotary' Over & Under case dispenser	20+ cases/min: higher operating reliability; handles light corrugate
Operating Flexibility	Wide Product & Case Size Range	Can handle a variety of pack patterns, product sizes and case sizes
Frame	Rigid open concept / 'EZ clean' design	Ease of cleaning; convenient operator access for change over
Integrated Controls	Multi-axis servo drives with full diagnostics; field bus wiring	Quick installation; fast diagnostics; easy to program w/graphic menu
Guarding & Safety	Full frame guarding w/large viewing panels & sliding doors; Cat 2 → 4	Open access; modern; easy to clean; 'zero access' barrier guarding
Convenient Operator Changeover Points	Air motor assisted changeover points (servo optional) & quick manual adjustments	Ergonomically located adjustment points; Full 3D Changeover < 30 minutes

SR3600 and **SR3500** combines unique multi-servo case handling automation with either the **SCt Upstacker** or the **SC-SS Downstacker** and the High Speed KDF **Auxillary Magazine** and offers unrivalled performance and flexibility. By listening to our customers, Edson's **NEXT-GEN SR** series are high performance packaging systems which are intuitive in their setup, able to accommodate all standard range and product types and can run continuously under demanding conditions.

The Edson **SR3600** system combines the latest servo technology and unique mechanical assemblies to provide a fully integrated case & tray packaging system for "large cases". This allows our customers to operate at even higher levels of performance and reliability.

Speed, flexibility, change over...
